PROFESSIONAL SUMMARY

Results-oriented Full Stack Developer with 3.4 years of experience building scalable SaaS platforms using Angular and Node.js. Possess strong architectural fundamentals and a proven track record in leading technical teams. seeking a challenging environment to leverage my frontend expertise while actively transitioning my backend focus to the .NET ecosystem to build enterprise-grade, high-performance applications.

KEY SKILLS

- **Frontend:** Angular, JavaScript, HTML, CSS, SCSS, Typescript
 - **Backend:** Node.js, Express.js, RESTful APIs
 - **Database:** MySQL, Firebase (Google Cloud)
 - **Server Management:** Basic server configuration, deployment, apache2
 - **Tools & Platforms:** Git, Postman, Material, Bootstrap, npm, AWS (if applicable)
-

Professional Experience

Full Stack Developer | Vebbuilders Technology August 2023 – Present

Core Stack: Angular, Node.js, Firebase, SQL.

- **Key Contribution:** Leading the backend and frontend development for complex SaaS applications, including [Mention your top project here, e.g., DetectDamage Ai].
- Spearheaded the integration of global payment gateways like Stripe and Iyzico, ensuring secure transaction processing.

Angular Developer | Magic Techno Labs PVT. Ltd. November 2022 – July 2023

- **Core Stack:** Angular, Typescript, Third-party Library Integration. Focused on developing responsive frontend interfaces and optimizing application performance.
- Collaborated with cross-functional teams to deliver scalable web solutions.

Angular Trainee | Aequitas Information Technology PVT. Ltd. May 2022 – October 2022

Completed an intensive 6-month training program focused on Angular architecture, Typescript fundamentals, and component-based design.

Key Projects

- **File-Formally (SaaS Platform):** Architected a multi-tenant inspection platform using Angular & Firebase. Led a team of 3 developers, implementing Role-Based Access Control (RBAC) and reducing report generation time by 40%.
- **Nasil-Sence (Survey Ecosystem):** Engineered a high-traffic survey engine with Node.js. Integrated Iyzico Payment Gateway and optimized Firebase queries for real-time analytics.
- **Eye-Belong:** Designed a club management system with complex SQL relationships and Sequelize ORM, handling dynamic membership lifecycles.
- **DetectDamage Ai (AI-Powered Vehicle Inspection & Claims Platform):** Spearheaded the full-stack architecture of an automated inspection platform that utilizes AI to detect and classify internal and external vehicle damages. In a Lead role, engineered a robust **Node.js** and **SQL** backend to orchestrate complex data workflows, while developing an interactive **Angular** dashboard that enables operators to visualize, validate, and adjudicate detected issues. Streamlined the insurance operations by creating a seamless claim management interface, significantly reducing processing turnaround times through automated reporting and direct insurer integration.

Other Projects: Developed I-HRMS and Digits auction platform using Angular and Node.js.

PERSONAL DETAILS

- **Date of Birth:** 9/11/1997
 - **Gender:** Male
 - **Languages Known:** English, Hindi, Gujarati
 - **Nationality:** Indian
 - **ADDRESS:** B-202, New Mangaldeep Society, Nr. Rajivnagar Metro Railway Station, Jivraj Cross Road, Jivraj Park, Ahmedabad, Gujarat-380007
-

DECLARATION

I hereby declare that the above information is true to the best of my knowledge.

Yours Sincerely,
Shreyansh Jadav
